

Global-i Lab™ Services Suite of Innovation Services

Global-i®

Value-Driven Solutions
Delivered

Global-i Lab™ Services offers a suite of services that will benefit communications clients in identifying and analyzing new innovation opportunities and sources. Some of the major technology areas are:

- Wireless Carrier Infrastructure
- Wireless Handset and Devices
- Wireline Carrier Infrastructure
- Satellite Carrier Infrastructure
- Cable MSO Infrastructure
- Enterprise Communications Infrastructure
- Communications & IT Software Applications
- IT Services

Service Benefits:

Utilizing the Global-i Lab Methodologies™, Communications and IT OEMs can identify, analyze and execute on customer opportunities. Communications Service Providers, Systems Integrators, Enterprise, Government and Vertical Market Customers can understand the best-fit vendors and sources for new technologies they require to offer new/enhanced products and services to their end-customers, employees, partners and all other stakeholders.

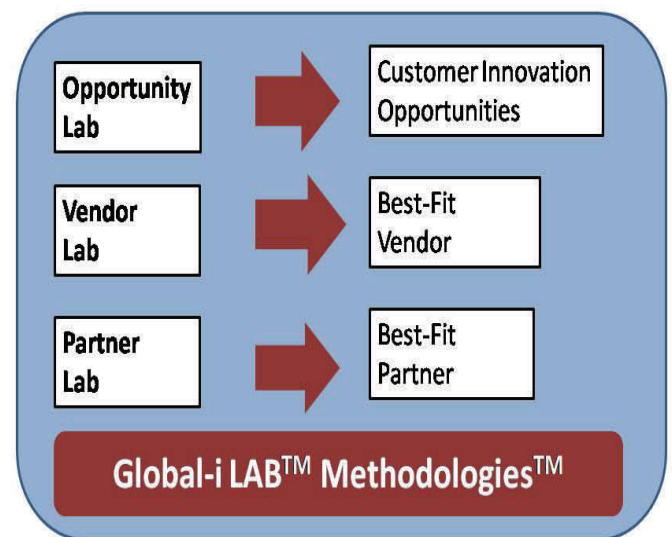

Services Delivery:

Global-i delivers the Innovation-based services from its Delivery and Innovation Center via Lab Services Practice Management teams. Follow-up services to the Lab Services are provided via Global-i's full portfolio of Lifecycle and Implementation Services (visit <http://www.globaliconsulting.com/id122.html>)
